All-new Mazda2 - Pricing and Specification Announced

- 16-strong all-new Mazda2 model line-up priced from £11,995 to £17,395 on-the-road (OTR), on sale in the UK early next year.
- Five level grade structure -SE, SE-L, SE-L Nav, Sport and Sport Nav- combining generous standard equipment with premium quality and craftsmanship
- Cutting-edge technology including 7-inch colour touch-screen*, MZD Connect* smartphone connectivity and Active Driving Display** - the first head-up display in the B-segment
- Optimised range of Euro 6-compliant SKYACTIV powertrains -1.5-litre, 75, 90 and 115ps petrol and 1.5-litre, 105ps diesel engines
- Comprehensive safety package as standard, including Hill Hold Assist, Tyre Pressure Monitoring System, Dynamic Stability Control and Traction Control System

Combining Mazda's unique SKYACTIV technology with its striking 'KODO-Soul of Motion' design philosophy, the all-new Mazda2 will bring new levels of technological sophistication, driving pleasure and active safety to the highly competitive B-segment when it goes on sale in the UK early next year.

The first appearance of the all-new Mazda2 model range sets new standards for infotainment, in-car connectivity and equipment levels in the segment with the 90ps SE-L Nav models featuring a 7-inch colour touch-screen, a rotary Multimedia Commander infotainment control, MZD Connect, DAB radio, and a satellite navigation system as standard, whilst Sport Nav models also benefit from the addition of 16-inch alloy wheels, smart keyless entry and climate control air-conditioning.

The arrival of the all-new Mazda2 in the UK will be celebrated by the availability of a special, £14,995 on-the-road (OTR) Sports Launch Edition. Powered by Mazda's 1.5-litre 90ps SKYACTIV-G petrol engine, and includes an integrated navigation system, 16-inch alloy wheels, privacy glass, dusk-sensing lights, rain-sensing front wipers, rear parking sensors and free-of-charge Metallic/Mica/Pearlescent paint.

Offering a choice of 12 petrol and four diesel variants, the 16-strong line-up of Mazda's best-selling UK model will be priced from £11,995 to £17,395 on-the-road (OTR).

Featuring the signature 'wing' front grille and predatory headlamp styling which instantly identify it as the latest addition to the Mazda family, the company's all-new supermini shuns B-segment-ubiquitous monobox styling in favour of a dynamic, muscular, cab-rearward design which incorporates a longer wheelbase with smaller overhangs to maximise interior space.

On-board, extra shoulder and knee room is complemented by improved seat comfort and hold, clear, coherent instrumentation and switchgear, and superior ergonomics. Within a five level grade structure -SE, SE-L, SE-L Nav, Sport and Sport Nav- a wide range of premium interior finishes raise the bar for quality and craftsmanship in the B-segment.

Amongst the most remarkable features of the all-new Mazda2's cabin are its unprecedentedly user-friendly layout and a level of cutting-edge technology unique to the class.

Available from SE-L 90ps grade, a 7-inch touch-screen combines with a rotary Multimedia Commander to create an enhanced human-machine interface (HMI) offering extremely safe, intuitive interactivity and infotainment control. DAB radio features for the first time in the Mazda2 and, in SE-L Nav and Sport Nav grades, a new navigation system offers greater accuracy, improved search features and three years of free map updates.

Plus, occupants can always be online with MZD Connect. Mazda's in-car connectivity system works with compatible iPhone and Android smartphones to access a variety of free mobile content via Aha™, a cloud platform-based*** service which features thousands of stations, personalised, location-based services and both Twitter and Facebook audio feeds. MZD Connect also supports iPod®, MP3 and CD playback, terrestrial radio, SMS and readout functions.

In conjunction with a seven per cent reduction in vehicle weight, the all-new Mazda2 features an optimised range of ultra-efficient SKYACTIV powertrains. A choice of 1.5-litre, 75, 90 and 115ps petrol and 1.5-litre, 105ps diesel engines, all of which are Euro 6-compliant, offers customers the ideal balance of lively, agile performance and highly-competitive fuel economy.

The all-new Mazda2 incorporates a comprehensive array of active safety systems including Anti-lock Brakes (ABS), Electronic Brakeforce Distribution (EBD), Electronic Brake Assist (EBA), Dynamic Stability Control (DSC), Traction Control System (TCS), Emergency Stop Signalling (ESS), Hill Hold Assist (HHA) and a Tyre Pressure Monitoring System (TPMS) are fitted as standard across the model range.

SE-L 90ps, Sport, Sport Nav grades and the Sports Launch Edition model are further equipped with a Lane Departure Warning System (LDWS), and Smart City Brake Support (SCBS). Operating between speeds of 2.5 and 18.5mph, SCBS automatically applies the brakes if the system detects an imminent frontal impact.

Finally, an optional Safety Pack on 115ps Sport Nav models offers even higher levels of driver assistance and security with High Beam Control (HBC), an Advanced Blind Spot Monitoring (BSM) and Rear Cross Traffic Alert (RCTA) system, and an Active Driving Display. Introducing head-up display technology to the B-segment for the first time, the system projects the most important real-time driving data directly into the driver's forward field of view.

- Ends -

Editors Notes

* Available as standard from all-new Mazda2 90ps SE-L models

** Available as part of the optional safety pack

***Internet application integration requires compatible Apple® or Android® device. Aha™ / Stitcher™ apps need to be downloaded to mobile device and app registration completed before connection. Data usage and costs will vary, please contact your network provider for more information. Data usage relies on a valid data signal being available. These functions may not operate in areas of low signal strength. Please refer to www.mazdahandsfree.co.uk for the latest information regarding compatibility and functionality of mobile devices.
